

the copyright income

scalability is high

the controllability and the constraints : it depends the publisher or the platform.

the investment is very high.

if you want to earn the money to a certain extent.

you just have to input on the necessary degree.

the marketability: : the marketability is either major or minor or competitive.

passivity: the scalability is very big. If you want to make a passive income more automatic, you have to hire specific one to help you.

the copyright income incl:

- books, music, photos, the downloadable content
- Print on demand, online course, the app developing
- ka-bing5, khong3-giap8-kuan5.

the cash flow is depends on the idea that is marketable.
the brainstorm is required.

your interests, passions, habits, and you have to add something that is not existed in the market.

the feedback is required, but no believing completely from your kindness.

the selling information is required to make.

the research on the amazon is required.

the releasing time, the length of the content is suitable for short or long one?

the searchable result is related to the competed situation.

the comments is also required to read.

the price should be reasonable.

the copyright is required to make a passive income.

you have to spend lots of time to finish your work in the 1st stages. the marketing is required, therefore you have to spend some time to maintain your income in the 2nd stage.

you have to make a summary and a thesis to plan- planning to make your books.

keep writing, and you have to not to give up, or surrender.

you have to write it every day, even 10min/day.

you have to correct and revise your work.

and then you can consult to your known experts or professionals to correct your draft.

**** *the example of honoree order*****

you have to -

You Must write a book.

every one is a coach and speaker, and you must write a book.
you have to make seven things to market your books.

call the newspaper and television station, and released the intro on the local magazines. you have to work continuously, and the work is lifelong the debt of traditional publishing and self-publishing.

the decision of the publisher is depends on the publisher while using traditional publishing. and the writer have to hire an agent to the publisher discussion, etc. the traditional publishing, you only get the 15% to 8% income to the copyright fees. and even though you have contracts to publish your books, you have to hold the marketing, even the totally tasks of it probably. if you sign on the contract, and the revenue is entered. the self publishing is when you get the 35% to 70% of the income. the time to find a traditional publisher is too hard. and the money for the self publishing is relatively cheaper.

you have to consider consulting a writing agent

agentquery.com - find the list of the topic related books.

the proposal of publishing your books:

the query mail - how they should publish your book?

the summary of the topic

the reason of the market demands and the persuasion of the book is required to be proposed. the draft you have to let them see.

the "Published" by Chandler Bolt is useful to self publishing.

the newbie writer should join the path of self publishing way.

you can hire a professional editors to publish your books.

the "Upwork" and "Fiverr" is ok to find the editors.

the designing of the cover page is determined by yourself.

the Kindle publishing of Amazon is OK and using "Kindle Direct Publishing" - ebooks and paperbacks. the auto self publishing make the revenue higher portion the self discipline is hard for most people.

the books to change the world is depend on teaching the people to change their behaviours.

the music copyright is another way to earn more revenues.

the 2 copyright of music: master rights (bo2-tua3 tu3-tek- -chok4-koam5) and publishing rights (hong3-sang3-kuan5) it's hard to make music to earn money. the music artwork costs a lot of money and takes you a lot of money. you have to register in the performing rights organization to be a member. eg. the association of the composers. the recording of a music is from combining of the music. mixing music track. cd records company vs indie publishing of your music.

2

the software and the app is another way to earn revenue.

however, it is not very easy.

the jialmeng2 is another way, but you have to get a creative commercial management mode to make others join you.

you can make another to do what you want and give him some useful resources, to archive it. and the license fee is charged.

the mining right is considered another method, but not feasible in Taiwan.

HOW to marketing: using SNS to post news about it, and using the investigation of related fans pages.

the public test is another useful tool.

the initial can have free pages to sell your products.

the year cost / the dividend yield = the money you should invest.

-eg-

the ~~bea~~ bond is related to the rate determined by the FED, central bank, etc. if the rate is low, the stock or ETF are proper.

REITS is another good way for investing in real estate market.

the investing way using automatic ventors is related to adding a marketing plan and the goal-objective-relative investigation.

the advertisement and the marketing posting of an article or some object is another way.

another way is the proxy seller (tai3-lbe 2tong1-te7--e5 mih8 kiann7 kau3 pat8-ui7)

the airbnb is another way, but its not consider totally legal in some countries.

the leverage of the debting and using it to invest the real estate is high profit and highly risky.

TOME MANAGEMENT -) setting Objects just do it.
